

Golf Day for The Swedish Credit Insurance Association - KFF

On June 10th it was time for another gathering of the Swedish Credit Insurers for the event of the year, The KFF-golf Cup!

Over the last 4 years this event has been arranged and supervised by Curt Hässler from Söderberg & Partners. Now it was time for KFF to take over the responsibility for this prestigious competition. We were delighted to still get a helping hand and valuable support from Curt Hässler based on his previous experiences.

We celebrated the 5 years anniversary of this event and everybody were curious to see who would bring home the Cup this year. At three times representatives from Atradius were the winners and once it was with Coface.

Following the tradition the venue was the Saltsjöbadens Golf Club and as previous years Atradius were the sponsor for green-fee's with Euler Hermes and Coface sponsoring the lunch and mid-way snacks and some beer at the Club House after the game. We were extremely lucky with the weather as it was sunshine but not too hot and just a slight wind.

The winner of the Cup was Curt Hässler (Söderberg & Partners). A well deserved winner who reached 33 points. As three players reached the same score, 30 points we had to separate them by using their handicap. Consequently Jörgen Sandström (Marsh) scored as number two and as third Steen Amby (Söderberg & Partners Denmark). Also on 30 points but this time without a medal was Michael Regmert (EKN).

Jörgen Sandström (Marsh) won the price for the longest drive in the men's class and Anne Abrahamsson (EKN) in the ladies class. Winner of the price for "closest to pin" went to Michael Regmert (EKN).

Our gratitude's goes to Curt Hässler for his efforts and drive in successfully arranging the trade sector golf for all those years. We will make sure the tradition continues.
